

# HELLO!

Dear Green Top Grocery Owner,

Thank you for your assistance in growing our membership! Whether you're interested in inviting friends over for a potluck, taking a co-worker to coffee, or hosting a Lunch & Learn session at your place of business/employment, this Event Tool Kit has you covered!

By telling your Green Top Grocery story through these kinds of events, you impact the speed at which we are able to open a grocery store... which is really what we are all working toward! House parties (such as potlucks, dessert parties, or wine & cheese events) usually result in new owners and volunteers, and hopefully spur additional house parties. Telling a friend about GTG over coffee in a one-on-one setting helps build a better understanding of the co-op, which also leads to new owners and volunteers. Hosting Lunch & Learn events have proven wonderfully successful for GTG and often result in multiple new owners and more house parties!

The goal of this tool kit is to provide you everything you need to make your hosted event as easy for you as possible. We can't wait to hear more about your event!

Many thanks,

*Your GTG Board of Directors and the Outreach Committee*
